PLUMB IN RICHMOND

Sponsor of Nationalization Plan Urges More Equitable Taxation

Explaining his plan for nationalization of American railroads before an audience of 2,000 at the City Auditorium in Richmond yesterday afternoon, Glenn E. Plumb, general counsel for the four great railroad brotherhoods declared that taxes lost to the State, counties and cities through operation of the roads under his plan could be replaced by levying upon other property in a more equitable manner.

Occasion was also made by Mr. Plumb for a criticism of President Wilson's proposals for settlement of the demands for increased wages by railway workers.

Declaring that efforts of government to restore conditions to normal will fail so long as "financial autocracy is kept in power through the inflation of prices and values," he said that the time has come to "strike out bravely in the direction of fundamental economic reconstruction.

If a strike vote is returned by the railroad men in face of President Wilson's "truce" proposal. Mr. Plumb warned that the issue would almost inevitably extend beyond the field of wage adjustments and into the field of "economic reconstruction."

Replying to the statements of the Virginia Corporation Commission, submitted a few days ago to Governor Davis, which it is pointed out that under the Plumb plan the State would lose one-fourth of its revenues during the next ten years, Mr. Plumb said.

"This seems at first to be a very serious arraignment of the plan, a charge that would materially affect the interest of every citizen of Virginia.

"Let me ask you: where do the rail roads and canals get the $2,284,000 that they pay to the State in taxes?

"They collect it from the citizens of Virginia.

HEALTH OFFICER ANSWERS QUESTIONS

Offensive Odors No Power To Create Or Transmit Disease

CAUSE OF MALARIA

Night Air Is as Harmless as Air In Daytime as Far as Its Power is Cause Disease.

Here are the answers to a few of the questions that Health Officer Foulks is daily called upon to explain to interested citizens seking information.

Q—"Can a person contract disease from the odor arising from some decaying substance such as garbage or animal or vegetable matter?"

Ans.—No they cannot. The offensive odor given off by any rotting substance while very unpleasant has no power to create or transmit disease. The bad smell is caused by gases formed by the action of certain bacteria provided by nature for the purpose of breaking up and disintegrating dead organic matter into its simple and original elements so they may be used over again in other forms of life. Nothing is wasted by nature.. As soon as a plant or animal dies nature's sanitary corps starts to work without delay. If this were not so the earth would soon be covered with dead animal and vegetable matter and nature would shortly run out of carbon and other natural elements, then all life would cease to exist.

Q—"What is the green scum that forms on the water contained in stagnant pools, and will it cause malaria or other disease?"

Ans.— The "green scum" is composed of microscopic plants that quickly grow in stagnant water during warm weather. The chlorophyl, or green coloring matter in these minute water plants, is exactly the same as we find in a blade of grass or the leaves of trees. It enables such plants to absorb energy directly from the rays of the sun, taking up carbon dioide and breaking it up into its simple elements of carbon and oxygen. The carbon is consumed by the plant and the oxygen is given off as gas This process is called photosynthesis. This "green scum" is doing good work and has no power to cause disease. These green plants cannot grow in water highly polluted with sewage or human filth.

Stagnant water may breed mosquitoes, but it don't cause malarial fever Malaria is caused by a small parasitic organism that lives part of its life in the body of the anopheles mosquito, and the other part in the blood corpuscles of a human being, where it completes its development. No person can in any possible way contract malaria unless bitten by a mosquito that has itself been infected by biting some other person who has the malarial parasite in his blood.

Q—"Is night air dangerous to health; is it miasmatic or capable of conveying disease?"

Ans.—Night air is as harmless as air in the daytime, as far as its power to cause disease is concerned. This is attested by the known fact that people who live out in the open both day and night, are far more healthy than those who live in houses. The old idea was that malaria was due to a "miasm" or infectious matter rising in the air from swamps at night. That is the reason for the more or less deep seated fear of 'night air' that still prevails.

BOYS' DEADLY DISPUTE

Lad of 11 Years Acused of Killing 6-Year-Old With Stone

Philadelphia, Sept. 1.—Probably the youngest person ever incarcerated at Camden police headquarters to answer a charge of causing the death of another person is 11-year-old Charles Emmanuel of No. 1024 North Twenty sixth street. The boy was locked up in the detention rooms yesterday by policeman Schlam to answer for the death of 6-year-old Harry Brennet Smith, of No. 1033 North Twenty-sixth street. Before he died the Smith boy said he had been struck in the head with a stone by Emmanuel while they and other boys were at play on a commons along the North Carmer Hill shore. The Emmanuel boy is charged with assault and battery on the police book but it was stated that since the other lad died the complaint will be charged to that of manslaughter. The mother of the Smith boy is a widow.

Claiming he is innocent of the charge of hurling a stone at his companion, young Emmanuel yesterday said: "We were out along the river front flying a kite. With us was Buddie Smith, Harry's brother. Harry told Buddie I hid his kite, and that made me mad and I hit him on the head. I did not throw a stone at him. I just hit him with my fist right across here"—pointing to his forehead.

Emmanuel, it is said, also stated that the Smith boy was injured by a fall from a step. Physicians connected with the case declined to discuss it until the investigation is complete. Coroner Pratt issued a certificate of death from meningitis, due to an injury.

ENGINEER DIES

New York Central Limited Crashes Into Freight Near Painesville, Ohio.

Cleveland, Ohio, Sept. 1.—Leaving a joint celebration in honor of the sixtieth birthday of his wife and the safe return of his son, Harry, once reported killed in action in France, Engineer Thomas J. Sankey went to his death last night, and in so doing saved the lives of several hundred passengers on. the New York Central Twentieth Century Limited.

Engineer Sankey took out the fast train he has piloted for years as usual last night, and was speeding along about a hundrd miles east of Painesville when he saw a freight train moving slowly eastward on a parallel track buckle. The freight cars were flung across the path of the oncoming express.

Engineer Sankey, in a flash, realized the situation, and, applying the emergency brakes, appreciably lessened the speed of the flying passenger train. There was not time to make a complete stop, but, sticking to his post, Engineer Sankey brought the long train of Pullmans to a stop into the scattered wreckage.

He made the supreme sacrifice in saving his train. Flying timbers from the freight wreckage struck him as he leaned out of his cab the better to size up the situation. His first accident in forty-five years' service for the New York Central was his last one. The express train continued its way as soon as the tracks were cleared with a new engine.

WHITES AND BLACKS ENGAGE IN A RIOT

Six Negroes and Two Whites Killed in Knoxville, Tenn.

TROOPS GUARD CITY

Attempts to Lynch Alleged Negro Murderer Brings on Race Clash—Both Races Armed.

Chattanooga, Tenn., Sept. 1.—Sheriff Bass re-enforced jail guards here today, anticipating an attack by armed men from Knoxville, who are reported to have left there vowing to lynch Maurice Mays, negro, accused of murdering Mrs. Bertie Lindsey.

Mays, when placed in a cell here, denied any knowledge of the attack on Mrs. Lindsey.

Knoxville, Tenn., Sept 1.—With troops of the Fourth Tennessee National Guards patrolling the streets last night and blacks and whites inflamed with race hatred a recurrence of the rioting of yesterday morning was expected Six negroes and two whites were killed and a score of negroes wounded when the troops turned a machine gun into the mob. The white men were both guardsmen accidentially placed in the line of fire.

Negroes and whites throughout the city are armed all stores carrying firearms having been looted.

The trouble started late Saturday night when a mob of whites attempted to storm the jail and take Maurice Mayes a negro held for the murder of Mrs. Bertie Lindsey. A negro, it was charged, shot Mrs. Lindsey in her home after having entered her sleeping room As word of the white mob reached the negroes they assembled and a battle was fought at Vine and Central avenues. Two negroes were killed and ten whites wounded The troops turned machine guns on to the rioters but the fighting continued until daybreak.

Before the attempt to storm the jail, the negro accused of killing Mrs. Lindsey had been taken to Chattanooga. During the morning, crowds of whites left for that city with the intention of attempting to seize the prisoner from the Chattanooga jail.

Clashes between whites and blacks folowed imediately after the mob left the jail. Jim Henson, a well-known Knoxville negro, was the first victim, falling riddled with bullets after he had attempted to charge the mob single-handed.

Negroes, gathering from the straggling blacks down town, charged teh whites, who returned to the colored forces charge for charge Troops then took a hand in the fighting.

RAZING AN OLD LANDMARK

The massixe chimney of what was once the Pioneer Mills at the foot of Duke street has stood during the past seventy-five years casting its shadow over the Potomac even as the Sphinx of Egypt has stood silent for centuries. It was erected at the beginning of the last half of the previous century when the Pioneer Mills, one of Alexandria's industries, followed the retrocession of the city from the Distict of Columbia to the mother state.

The mills were operated from about 1853 to 1860, producing a brand of flour, which was in demand, especially in South America. In the succeeding year, when the city was captured by the federal army, the Pioneer Mills were used as storing places for government supplies. At the close of the conflict "hard tack" the bread furnished soldiers and sailors, tons of which were left on hand, were ground at the mills. For many subsequent years the Pioneer Mills remained idle, or practically so, being at times used by our commission merchants, until the night of September 29, 1896, when the structure was practically demolished, by a tornado which struck Alexandria. In the early summer of the following year the mills were given their coup de grace by a fire which swept a large area of the river front.

From the mills were erected the huge chimney practically as intact as when first erected, has stood as the pyramid of Gizeh amidst the ruins of one of our most promising enterprises of other days. It is now being demolished by the present owners of the property, and this prominent landmark, which has witnessed the fluctuations of our city nearly three-fourths of a century is gradually vanishing from view.

"THE GUNSTON HALL" AT SEA.

The huge steel steamship "Gunston Hall," launched at the plant of the Virginia Shipbuilding Corporation at this place last February, is now on the broad Atlantic, having left Baltimore yesterday loaded with coal for Rotterdam. The steamer is flying the American flag and under her name on the stern are the words "of Alexandria."

The "Gunston Hall" is the first ocean-going vessel hailing from this port which has appeared on the Atlantic since the early eighties, at which time several large coal carrying schooners were constructed here.

The "Gunston Hall" will soon be followed by the "Betsy Bell," now at Newport News, which will also soon be on her way to Liverpool. Two other steamers, built upon the same models, are now lying at the plant of the shipbuilding plant. They will, in the near future, be plowing the Atlantic. Four others are being built, one of which will be consigned to its element next month.

At the breaking out of the civil war but one of what was at one time a large fleet of Alexandria-built ocean vessels was engaged in trading from this port. This was the brig "Leni," owned by the late Benjamin H. Lambert, and commonded by the late Captain Travers. Twenty years elapsed before others hailing from Alexandria appeared on the high seas, and it is pleasant to know that large steel steamers hailing from Alexandria are at present engaged in ocean trade.

THE MOSQUITO IN POLITICS

While much larger mosquitoes are said to infest New Jersey, those which hang about Alexandria during the summer months and far into the fall, while smaller, are equally as venomous, and on still warm nights they keep their human victims busy. Coal oil, citronella, tobacco smoke and other so-called preventives afford but temporary relief, and while health officials tell us these pests are bred from stagnant pools, they also say they are brought to birth in clear water also. With the Potomac river at our doors, and swamps contiguous to the city, we must grin and bear them.

The extermination of the New Jersey mosquito is the promise given the Republican voters of that State by Newton A. K. Bugbee, one of the four candidates for the nomination for Governor. if he heads the party ticket and is elected at the next election.

The promise was made Saturday to crowds of enrolled voters who gathered to hear him speak at Allentown, Freehold, Matawan, Keyport, Sea Bright, Atlantic Highlands, Manasquan, Belmar, Asbury Park, Bradley Beach, Long Branch, and Red Bank. He said $1,000,000 would be appropriated for the purpose of reclaiming waste lands where the mosquitoes thrive.

It is generally believed that certain mosquito-breeding grounds near Alexandria will be eliminated in the near future. It is said to be the purpose of the Virginia Shipbuilding Corporation to reclaim a considerable portion of north Hunting Creek, and that what has long been known as "Johnston's Marsh," adjoining New Alexandria on the southern shore, will eventually be reclaimed.

CONDITIONS IN KNOXVILLE

The rioting in Knoxville, Tenn., Saturday and yesterday is to be regretted, following as it did similar unfortunate occurrences in Chicago ington. While such turmoils were distracting the great western city with similar scenes in the nation's capital, the Gazette with other southern papers expressed its satisfaction that our section of the country had been spared such scenes. We were, however, immune for a short time, as dispatches show that acts equally as bloody as those which disgraced Washington and Chicago are in evidence in an adjoining state.

OBSERVANCE OF LABOR DAY

The weather today has been ideal for a holiday. The skies have been clear and the temperature pleasant, in contrast to the warm conditions which prevailed at the close of yesterday.

Commercially speaking, today has been a dies non, public buildings, banks, etc., having been closed, while but few stores hape remained open, and these only during the early morning hours.

A large percentage of our population left the city early for nearby resorts, and railroads and steamboats have been taxed to their limits in affording transportation. Hundreds of automobiles have been utilized to carry family parties to rural spots, where the day has been spent amid nature's surroundings.

Approximately 75,000 persons left Washinton today, for nearby summer resorts where they will spend Labor Day, With a few exceptions, every business house in Washington was closed. Roads leading out of the city have been, since yesterday afternoon, thronged with automobiles carrying pleasure seekers to resort and homes in nearby places.

OLD-TIME RELIGION

During these days of reconstruction many ministers of the gospel, animated by the best motives, would do with the powers that be in ushering in an era of peace which may prove to be the dawning of the long anticipated Millennium. We all hope for this great desideratum. In this connection the Manufacturers' Record of Baltimore makes the following practical suggestions:

"Above all else this country needs a nation wide revival of old fashioned prayer meeting religion.

"A religion that makes men realize that if there is a Heaven, there must also of necessity be a Hell—

"A religion that makes a man realize that every act is recorded on his own conscience, and that though that may slumber, it can never die—

"A religion that makes an employer understand that he is unfair to his employes and pays them less than fair wages, measured by his ability and their efficiency and zeal, he is a robber—

"A religion that makes an employe know that if he does not give full and efficient service, he too is a robber—

"A religion that makes a farmer, who packs bad fruit at the bottom and deceives the buyer by the good fruit on the top, realize that he is a thief just as much as the one who robs a hen roost at night—

"A religion that makes a man who robs a railroad of its fare, or its freight bill, know that he robs himself of all right to feel that he is an honest man—

"A religion that makes a man realize that by driving too hard a bargain with his servant, his employe, or his merchant, he can be just as much a profiteer as the seller or poducer who swindles by false weight, false packing or false charges—

"A religion that will teach church members who fail to contribute to the extent of their ability to the support of religion, and that compels them to recognize that if they are paying their pastor less than a living salary, they are robbing God and man alike—

"A religion that will make the laboring man, who by threats or by actual violence against the non-union man, strives to keep him out of employment, realize that he is at heart a murderer and is murdering the individuality, and the liberty of his fellow man, and is displaying a hatred which, if it has the opportunity, will commit physical murder—

"A religion that will make the politician who yields principle for the sake of party, who worships at the feet of any class and sells his soul for political preferment know that he is not only a coward and a poltroon, and unworthy of the respect of any decent man, but which will also make him see that he is helping to murder human liberty, as great a crime as murdering the individual man."

DRAG GIRL FROM FALLS

Two Men Wade Out From Goat Island To Rescue Her

Niagara Falls, N. Y., Sept. 1.—A young woman, who said she was from New York, and refused to tell her name, was taken from the Niagara River at the brink of the Horseshoe Falls off Goat Island last night by William H. Kretzer, of Sharpsburg, Pa., and Alvin Meyers, of Rochester. The two men were on Goat Island when they saw the woman in the shallow rapids near the island. They waded out thirty feet and brought her to shore, although they say, she resisted their rescue efforts.

In the woman's handbag, which was found on the bank of the river, was found a card on which was written "Enia Fedestowa, No. 78 Hicks street Brooklyn Heights, N. Y." The woman, suffering from nervous shock, was taken to a hospital.

To Our Patrons

Alexandria, Va., June 2, 1919.

In line with our progressive banking methods, and to meet the demands of our patrons, we are installing on July 1st, an up-to-date Safe Deposit Department, under the personal supervision of one of our officers.

This has been made necessary from the fact that a large number of our depositors owning Liberty Bonds and other securities desire a safe place for their keeping.

It is our plan to enlarge the number of Safe Deposit Boxes, and make a rental charge to meet the operating expenses of this Department. This charge will become effective July 1st, 1919, and a bill will be sent out at that time to the holders of boxes, and if any desire to make any change we will be glad to have them call before the bills are rendered for the ensuing year.

She does not tell things to please you, but reads your hand just as it indicates, from the cradle to the grave; tells every person what steps in life to take to better themselves; what part of the country is best for them to become healthy tells you how remain so; what business you are adapted for when and whom you will marry settles and explains love affairs and family troubles; reunites the separated. Does everything seem to go wrong and has fortune never smiled upon you? Has your life been empty? Do not despair as you can yet learn the true road to success and happiness for both await you if you will only know how when and where to find them which will be revealed to you. She tells you what you have done and what you are doing now and what you are going to do. All told without asking a single question. She has helped others, why not you?

No matter what may be your ambition, hope or fears, she guarantees to help you. Are you in trouble? Do you find the one you have bestowed your trust and affection upon acting cool and indifferent toward you? She will remove all obstacles and tell how to win and hold the one you desire. MURDER TRIAL TOMORROW.

Difficulty in Obtaining a Jury to Try Shackelford and Others Thought Probable at Manassas

Manassas, Va., Sept. 1.—Prohibition Inspector W. C. Hall and Deputies Harry E. Sweet, W. B. Dunlavy and J. H. Sullivan, charged with murder in connection with the killing of Raymond D. Shackelford and Lawrence D. Hudson, alleged bootleggers, at Fishers Hill on March 26, will be tried here tomorrow at a special term of the circuit court for Prince William county, Judge Samuel G Brent presiding. The case originated in Shenandoah county and was removed by request of counsel for the defense, sentiment in Shenandoah against the accused apparently indicating that a fair trial in that section would be difficult. The Shenandoah grand jury returned indictments charging each defendant with the murder of the two men.

Louis O. Wendenburg of Richmond, counsel for the defense will be assisted by T. E. Didlake and C. J. Meetze, of Manassas and Thomas H. Lion, Prince William commonwealth attorney will be assisted in the prosecution by C. E. Williams, commonwealth attorney for Shenandoah county.

A venire of forty were drawn and the sheriff will be required to summon thirty-six. Many express the opinion that it will be difficult to obtain a jury here.

FIGHT NEARS CLIMAX

Report to Senate Likely While President Is Addressing Country

Efforts of the Senate Foreign Relations Committee to report out the amended German peace treaty soon after President Wilson's departure Wednesday on his Western speaking tour is of great interest on this week's Congress program, starting Tuesday after the Labor Day recess.

Republican leaders expect to report the treaty to the Senate late this week or early next week for open consideration while the President is addressing the country thus bringing the treaty contest to a climax. Controversy over ratification amendments, reservations and interpretations is expected to ensue indefinitely and be intensified by the President's addresses.

In addition to the treaty contest, other important developments expected in Congress during the week are disposal by the Senate of the Prohibition Enforcement bill and the Oil Land Leasing bill, and report by the Senate Interstate Commerce subcommittee of a bill proposing a permanent railroad regulation policy. Work in the House will be confined largely to committee work in preparing legislation.

In connection with the treaty, the Foreign Relations Committee will continue hearings this week on questions affecting smaller European nations and peoples and also act on remaining provisions of the treaty, probably by adoption of further amendments.

MONTANA FIRES SPREADING

Ranches in Flint Valley Are Threatened.

Missoula, Mont., Sept. 1.—A forest fire of Willow creek, in the Missoula forest, about 20 miles from Philippsburg, Mont., crossed yesterday control lines, spread rapidly and threatened ranches in the Flint valley, according to information at district forest headquarters today.

Several small fires have sprung up in Western Montana during the last few days, it was stated, and a few larger blazes again have assumed threatening aspects, among them the Deep Creek fire in the Bitter Root forest and the Fohl creek fire in the St. Joe district.

The Deep Creek fire, which crossed the divide from Idaho into Montana a few days ago is still pushing ahead in a dangerous manner.

JEALOUS, HE CARRIED A GUN

Virginian Arrested on Charge of Threatening To Kill Rival

Winchester, Va., Sept. 1.—Because Miss Sadie Nicholas, young and winsome, preferred the company of Alvin H. Haines to that of Clark Smith, the latter became jealous and admitted in court Friday that he carried a gun, that trouble might have ensued therefrom. He was arrested for threatening to kill Haines, for pointing a revolver at him and for assault. Smith admitted that when he went to call upon Miss Nicholas he found Haines there and pulled out his revolver, not for the purpose of killing him, he said, but merely to ask him some questions. The court held that it was a very unusual way to ask questions, and thereupon assessed a heavy fine and costs.

ALL WHO HAVE BAD NERVES AND ARE RUN DOWN SHOULD TAKE THIS WOMAN'S ADVICE

"I surely sympathize with those who suffer from nerves and a run-down system. I know from experience just what it means and because of what I suffered I believe that I owe it to others to tell how, at last, I found such great relief.

I was recommended to take Chasco-Vin, an old time nerve and body-building tonic and it afforded me relief almost from the first dose, but I kept it up, taking it regularly. I am now on the third bottle and I surely feel my old self again.

In my opinion those who suffer with bad nerves and those who are run-down generally should lose no time in obtaining this wonderful tonic.

The Alexandria agency for the sale of Chasco-Vin is Edgar Warfield, Jr., King and Pitt Streets.

YOU NEED NOT SUFFER FROM CATARRH

But You Must Drive It Out of Your Blood.

Catarrh is annoying enough when it chokes up your nostrils and air passages, causing difficult breathing and other discomforts. Real danger comes when it reaches down into your lungs.

This is why you should at once realize the importance of the proper treatment, and lose no time experimenting with worthless remedies which touch only the surface. To be rid of Catarrh, you must drive the disease germs out of your blood.

Splendid results have been reported from the use of S. S. S., which acts on the catarrh germs in the blood.

If you wish medical advice as to the treatment of your own individual case, write to Chief Medical Adviser, 42 Swift Specific Co., Atlanta, Ga.

...pt. 1.—The lives of fifteen children, whose ages range between 14 years and four months, and of half a dozen adults were imperilled early yesterday morning when the explosion of a bomb wrecked the butcher shop of Gateno Di Pascale, at 937 South Ninth street and caused a panic among the Italian residents of the neighborhod.

The outrage is believed to have been committed by two Italians who used a high powered limousine bearing a New Jersey license tag to make their escape after planting the bomb in the dorway of the shop. Two hours later they returned to the scene of the explosion and were fired on by policemen investigating the crime, but escaped.

Doors and windows throughout the whole block were shattered by the force of the explsion and within a few seconds after the bomb had gone off the streets were filled with hundreds of Italians ,who fled from their homes fearing that a second explosion might occur.

No cause can be assigned for the outrage. Di Pascale says that he has no enemies who would wreak vengeance upon him nor has he ever been a member of any secret society that might have singled him out for retribution.

On the floors above the wrecked stores three Italian families live. They were terrified when they felt the floors rock and the walls shake, and ran down stairs in night attire.

DRAG NEGRO TO DEATH

Louisiana Citizens Wreak Vengeance After Bloodhounds Trail Man to Hiding Place

Bogalusa, La., Sept. 1.—After Lucius McCarty, discharged negro soldier, had been trailed by bloodhounds, caught and identified by a white woman as the man who attacked her Saturday, a mob of more than 1,000 men lynched the negro yesterday, tied his body to an automobile, dragged it through the principal streets and burned it in front of the home of the woman here.

The attack was Saturday night. The woman beat her assailant off at her home, seized a gun and fired several shots as he fled. His shoes, which were left at the house, were used to give the bloodhounds the trail.

DECLARED A REPUBLIC

Washington, Sept. 1.—Korean independence was declared in a proclamation "To the Peoples of the World," issued here last nigst in the name of the "Government and people of the Republic of Korea." The proclamation was signed by Dr. Syngam Rhee, "President of the Republic," and J. Kiusic S. Kimm, chairman of the Korean Commission to the Peace Conference.

Declaring that Korea was denied free development as "one of the alleged autonomous units of a Japanese mock federation." the proclamation said Japan's recent promise of reforms in the Korean government meant only a new form of the cruel denationalizing and deChristianizing process under which we have suffered unspeakable tortures."

"We make this declaration" the proclamation claimed, "on the basis of our heredity and unquestionable historic rights. Korea has been an independent state and nation for more than 4,000 years. Japan has recognized Korea's independence in every treaty up to and including the year 1904. Finally, however, Korea was induced to enter into an alliance with Japan against what was then regarded as the Russian danger. Under that treaty we never voluntarily surrendered any of our sovereign rights. But the autocratic and militaristic government of Japan deliberately broke that solemn pledge and by brute application of military force made ap- [illegible] our rulers and government officials, and after declaring a protectorate over our country, finally assumed to annex the Empire of Korea to the Empire of Japan. But we refuse to become an integral of component part of the Japanese Empire in any form."

A RESOLUTION proposing amendment to section 117 of article 8 of the Constitution of Virginia, and providing for publishing said amendment and certifying the same to the next general assembly.

Resolved by the senate and the house of delegates (a majority of the members elected to each house agreeing thereto), That the following amendment to the Constitution of Virginia be, and the same is hereby, proposed and referred to the general assembly to be chosen at the next general election of senators and members of the house of delegates, for its concurrence, in conformity to the provisions of section one hundred and ninety-six of article fifteen of said Constitution, namely:

Strike out from the Constitution of Virginia section one hundred and seventeen, which is in the words and figures following, to-wit:

Section 117. General laws for the organization and government of cities and towns shall be enacted by the general assembly, and no special act shall be passed in relation thereto, except in the manner provided in article four of this Constitution, and then only by a recorded vote of two-thirds of the members elected to each house; and except also in the case of cities having more than fifty thousand inhabitants, as hereinafter provided. But each of the cities and towns of the State having at the time of the adoption of this amendment a municipal charter may retain the same, except so far as it shall be repealed or amended by the general assembly; provided, that every such charter is hereby amended so as to conform to all the provisions, restrictions, limitations and powers set forth in this article, or otherwise provided in this Constitution.

Notwithstanding, however, anything in this article contained the general assembly may, by general law or by special act (passed as prescribed in article four of this Constitution), depart in any respect (except as otherwise in this section expressly provided) from the form of organization and government prescribed by this article for cities and towns, and may provide, from time to time, for the various cities and towns of the Commonwealth such form or forms of municipal government as the general assembly may deem best; but no form or forms of government authorized by the second paragraph of this section shall become operative except as to such cities or towns as may thereafter adopt the same by a majority vote of its qualified electors at an election to be held as may be prescribed therefor by law. All the limitations on the powers of the councils of cities and towns imposed by this article shall apply in like manner to the principal legislative authority under any form of government which may be authorized hereunder. The term "council" as used in sections one hundred and twenty-five and one hundred and twenty-seven of this Constitution shall be construed to include the body which, under any form of municipal government, shall be vested with the principal legislative authority of such municipality.

The general assembly, for the purpose of this article, may classify cities according to their population but the maximum population prescribed for any class shall exceed the minimum population for the same class by at least ten thousand. The general assembly, at the request, made in manner which may be prescribed by law, of any city having a population of over fifty thousand inhabitants, may grant a special form of government for such city.

Any laws or charters enacted pursuant to the provisions of this section shall be subject to the provisions of this Constitution relating expressly to judges and clerks of courts, attorneys for the Commonwealth, commissioners of revenue, city treasurer and city sergeants.

And insert in lieu thereof the following:

(b) The general assembly may, by general law or by special act, (passed in the manner provided in article four of this Constitution) provide for the organization and government of cities and towns without regard to, and unaffected by any of the provisions of this article, except those of sections one hundred and twenty-four, one hundred and twenty-five, (except so far as the provisions of section one hundred and twenty-five recognize the office of mayor and the power of veto) one hundred and twenty-six one hundred and twenty-seven and one hundred and twenty-eight of this article and except those mentioned in sub-section (d) of this section. The term "Council" as used in any of said sections shall include the body exercising legislative authority for the city or town, and all ordinances enacted and resolutions adopted by such body shall have the same force and effect for all purposes, as if enacted or adopted in accordance with the provisions of section one hundred and twenty-three of this article. But such organization and government shall apply only to such cities or towns as may thereafter adopt the same by a majority vote of those qualified voters of any such city or town voting in an election to be held for the purpose, as may be provided by law.

(c) The general assembly, at the request of any city or town made in manner provided by law, may grant to it any special form of organization and government authorized by sub-section (b) of this section, and subject to all of the provisions of that sub-section, except that it shall not be necessary for such city or town to thereafter adopt the same.

(d) Any laws or charters enacted pursuant to the provisions of this section shall be subject to the provisions of this Constitution relating expressly to judges and clerks of courts, attorneys for the Commonwealth, commissioners of revenue, city treasurers and city sergeants.

LABOR DAY MESSAGE

I am encouraged and gratified by the progress which is being made in controlling the cost of living. The support of the movement is widespread and I confidently look for substantial results. Although I must counsel patience as well as vigilance, because such results will not come instantly or without team work.

Let me again emphasize my appeal to every citizen of the country to continue to give his personal support in this matter, and to make it as active as possible. Let him not only refrain from doing anything which at the moment will tend to increase the cost of living, but let him do all in his power to increase the production; and further than that let him at the same time himself carefully economize in the matter of consumption. By common action in this direction we shall overcome a danger greater than the danger of war. We will hold steady a situation which is fraught with possibilities of hardship and suffering to a large part of our population; we will enable the processes of production to overtake the processes of consumption; and we will speed the restoration of an adequate purchasing power for wages.

I am particularly gratified at the support which the government's policy has received from the representatives of organized labor and I earnestly hope that the workers generally will emphatically endorse the position of their leaders and thereby move with the government instead of against it in the solution of this great domestic problem.

I am calling for as early a date as practicable a conference in which authoritative representatives of labor and of those who direct labor will discuss fundamental means of bettering the whole relationship of capital and labor and putting the whole question of wages upon another footing.

Woodrow Wilson.

JAMES RIVER FISH KILLED

Poisonous Substance Apparently Has Been Placed in Water

Lynchburg, Va., Sept. 1.—Thousands of fish have been killed in the James river during the past few days, apparently by some foreign substance which has been emptied into the river above Lynchburg. Silver perch, cary and cats appear to be affected by the condition more than other fish and these have been floating down the river in great numbers. While even larger numbers are to be seen in what is taken for the death struggles. Hundreds of half dead fish were captured by boys and were offered for sale, but as soon as the conditions under which they were captured became known there was no demand for them.

The only unusual condition in the river apparently is a patch of oil now and then floating on the surface of the stream, but this does not seem to account for the trouble.

JAILS SECOND OFFENDERS

Mapp Amendment Takes Away Discretion of Courts to Impose Fines

Richmond, Sept. 1.—Second-time offenders against the Virginia anti-trust measure if the Mapp amendment, adopted yesterday afternoon in the Senate, prevails in the House, will go either to jail or the State Penitentiary.

Even this provision is a compromise on the severity of the bill, which, as it came to the floor from the Committee on Courts of Justice, provided that the first violation should be punishable with a jail sentence.

The measure now provides these penalties:

For the first offense, the convicted man will be fined not to exceed $1,000 or sent to jail for a period not in excess of twelve months, or both, in the discretion of the court.

For the second offense, he will be fined not less than $1,000 or more than $5,000 and jailed not longer than twelve months or sent to the penitentiary for a period of from one to ten years.

MURDER AND SUICIDE

Chicago, Sept. 1. — Breaking through a door in a woman's apartment, following pistol shots, police yesterday found the bodies of Marie Meyers, 35, and Charles W. Richards, wealthy manufacturer, side by side.

A revolver in the hand of the dead woman, who was Richards' stenographer, indicated she had killed her employer and committed suicide.

FRENCH BRIDES DIVORCED

Paris, Sept 1.—Sixty-two French women who had married Americans, army officers or soldiers, and subsequently had been divoced in the United States, returned to France on the same steamer this week, according to the newspaper Avenir.

Most of them, the newspaper added, returned not because of personal differences with their husbands but because of the inability of the brides to adapt themselves to the American mode of living.

SLAYER OF SIX

Geneva Sept. 1.—A 19-year-old miner of Dormund Germany—Josef Ritter by name—has just been sentenced to death six times for as many murders. His is one of the many cases of crimes committed during fits of insanity due to war wounds.

Ritter first hit a 6-year-old boy over the head with an axe and when the boy still showed signs of life he hanged him to a door knob. Then he killed the boy's mother with the same axe and, when her husband came home he shot him dead. A maid attracted by the shot was the next victim to fall whereupon the monster went upstairs and throttled two sleeping children—a 9-year-old boy and a 4-year old girl.

THEATRES

GRAND THEATRE

A feature of special interest in connection with the latest Douglas Fairbanks picture "Bound in Morocco," which is on view at the Grand Theatre today is the spectaular hippodrome riding of Bob Hall, Claude Elliott and Mike Brahm, the well-known standing Roman riders, in the scenes portraying battles and chases on the Arabian desert. Also Antonio Moreno in "Perils of Thunder Mountain."

RICHMOND THEATRE

One of the strongest companies of players ever assembled in a picture production, appears in "Fires of Faith," the splendid massive Paramount picture which will be displayed at the Richmond Theatre today. The principals are Catherine Calvert, Eugene O'Brien, and Ruby de Remer, three of the best known artists of the screen world.

Miss Calvert is seen as Elizabeth Blake, a woman of the slums, who is reclaimed through the efforts of the Salvation Army and who does superb humanitarian work at the fighting front in France and wins the love of a brave American soldier. She is beautiful and has appeared in numerous picture successes, but her role in "Fires of Faith," is said to be the best she ever has essayed.

Eugene O'Brien is a handsome athletic leading man who plays the part of an aviator. He scoffs at the work of the Salvation Army until he learns the real value of that organization in world affairs. Miss de-Remer plays opposite to Mr. O'Brien, she appearing as a society girl of wealth who joins the Salvation Army and does her bit for humanity at the fighting front in France.

Evangeline Booth, the famous Commander of the Salvation Army in the United States, appears in "Fires of Faith," a superb Paramount picture of love, adventure and sacrifice.

INGOMAR THEATRE

The latest World picture, "Bringing up Betty," starring the clever and gracious comedienne, Evelyn Greeley, which will be shown at the Ingomar Theatre tonight, contains a great many shots of rare natural beauty.

The land scenes are laid in the gardens of a fine old country estate, while the yachting and boating scenes are, each and every one, clever bits of artistic photography.

"Bringing up Betty," is a charming comedy, admirably acted and intelligently directed. Also Chapter 3 of "The Great Gamble."
